***Acknowledgement***

Receipt is acknowledged of the Amendment filed September 15, 2006.

***Reasons for Allowance***

Claims 1-20 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Singh et al., taken alone or in combination of other references, does not teach or fairly suggest an integrated circuit comprising, among other things, a second selectable fabrication option comprised of a hard-wired circuit in lieu of said user configurable memory circuit; wherein the IC functionality and performance is substantially identical for a given configuration utilizing the first or second fabrication options (claim 1); a second selectable option comprises a hard-wire read only memory (ROM) construction; wherein, the logic circuits construction comprises one or more masking patterns that are invariant to the memory construction options (claim 8); and a second selectable option comprising a hard-wired read only memory (ROM) construction; wherein the pass-gate logic element construction comprises one or more masking patterns that are invariant to the memory construction options (claim 17), as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
